Various electric techniques tailored to specific skin concerns including High frequency, EMS technology, led light therapy, Microcurrent, Galvanic, Vacuum suction, Ultrasonic skin scrubber, and Steaming.

Mixing medical grade technology with luxury

Skin & Body

MICRONEEDLING

Dermapen works by gliding over the skin and microscopic channels are lightly stamped into the skins matrix stimulating a wound healing response with intense renewal repair and rejuvenation. Natural growth factors are released to stimulate reformation and deposition of fresh, restricting collagen. This can be used all over the body to help the apperance of lines, wrinkles, pigmentation, scarring, stretch marks and an over all great skin rejuvenation treatment.

In combination with mesotherapy we can also treat:

Collagen induction therapy

Sun damage

Ageing

Pigmentation

Rosacea

Enlarged pores

Scarring

Alopecia

Hair regeneration

Striae (stretch marks)

Price starts from £125.00

Skin & Body

CRYOPEN

Cryotherapy is the use of extreme cold produced by liquid nitrous oxide for the fast, effective and safe solution for the controlled destruction of unwanted skin imperfections.

The CryoPen™ is a FDA and CE registered advanced cryotherapy innovation. It is a pen-like instrument which delivers a fine pinpoint spray of liquid nitrous oxide at a constant temperature of minus-127 degrees under high pressure which allows the therapist to work with millimetre precision. This means the nitrous oxide is delivered directly to the treated area and not to the healthy surrounding tissue.

Freckles or dark, hyper pigmented lesions

Age/liver spots

Sebhorroic Warts

Milia

Warts – hands & feet

Cherry angioma (red blisters)

Verrucas

Skin tags

Beauty

Microblading SPMU

Microblading is a form of semi permanent make up where we create natural looking hair strokes in the skin tailored to your skin, hair and complexion to enhance natural looking eyebrows. microblading is a great treatment for clients who would like enhance shape and definition due to sparse, over plucked, out of shape eyebrows or clients who would just like to add to what they have.

Microblading lasts between 12-24 months depending on client, top ups recommended around 6-18 months, this will be advised when client comes in for treatment.

As our way to help others, we offer **FREE** microblading to cancer and alopecia patients who have had hair loss.

(T&Cs apply, please ask for more information)

£299.00 for the two treatments required
top ups £145.00

Holistic Health

You can incorporate into your face and body treatments the use of our Dermalux LED light or our lymphatic massage suit.

The Wellbeing Clinic

We recognise the vital connection between internal wellbeing and overall health.

Your skin, mood, mind, and general health are often reflections of underlying issues such as hormonal imbalances, intolerances, or nutritional deficiencies.

To address these, we offer a comprehensive service that includes relevant blood tests to uncover the root causes of your concerns.

Our approach ensures that we develop a holistic plan to improve both your internal and external health. By understanding what's happening inside your body, we can tailor our treatments to achieve the best possible results, helping you to become the healthiest version of yourself.

Our consultations not only identify visible factors but also delve into the underlying internal issues, providing you with thorough answers and effective solutions.

These tests can be delivered to you for clients who would like an online consultation.
